OIT 0962-88

4 OCT 1988

MEMORANDUM FOR: Director of Research and Development, DS&T

25X1   FROM:

Acting Director of Information Technology

SUBJECT: Request for STU-III Communication Capability
and Hardware

REFERENCE: Your Memo (ORD-0761-88), dtd 9 Sep 88, Same Subject

1. This memorandum is in response to your request for OIT permission to obligate $8K of operating funds for acquiring two STU-III communication units for your contractor

25X1

2. Your request has been received and assigned Project Number 88-2157. NSG/OIT Project Officer,   will be contacting your representative within the next two weeks for a communication security site survey and to determine the scope of work required. Approval, funding requirements, and scheduling information will then be known. Any inquiries regarding your request should be directed to the assigned Project Officer.

25X1

3. STU-III units may not be used for secure data communications at this time; however, STU-IIIs are in the process of being tested for vulnerabilities in the data mode. We will keep you advised of the results when they are made available.

Please return the originals to me, and send copies to the addressee and cc's.

Thanks,

Note To: Chief, Customer Services Group

25X1   From: [   ] Chief, Requirements and Plans Sta

Subject: STU-III Request from ORD

Pete,

25X1   Attached is a request from ORD for permission to purchase two STU-IIIs -- one for themselves and another for their contractor [   ] I realize that we don't yet have an endorsed office policy on STU-IIIs, but this request doesn't sound too far afield. Please review ORD's request and send me a proposed response from D/OIT over AIM. Thanks,

25X1

    cc: C/OG - for info
         C/EG - for info
         OIT SI - for logging and tracking
